About the prints

Photographs are hand printed in a darkroom in Kinross House using traditional techniques. They are printed on a gloss, fibre-based German photographic paper (Tetenal Baryta TT), processed in a warm toned developer, fixed and washed for archival permanence. Prints are mounted on acid free foam core board behind a bevel cut window mount. Ikea Richmond generously donated one-third of the frames.

Sales (please complete separate order form)

Original 9.5” x 12 “ photograph in 16” x 20” frame	\$275
